

## **ONSPEED announces revenue share partnership with YAHOO!**

*New customised feature toolbar for all ONSPEED customers adds important functionality and additional search revenue*

**LONDON, UK – February 2<sup>nd</sup> 2007** – ONSPEED, a subsidiary of Z GROUP PLC and the brand leader in Internet acceleration, announces a revenue share partnership with YAHOO! through the launch of a new customised ONSPEED toolbar.

The toolbar, which is available free of charge to all new and existing customers, offers ONSPEED customers a powerful and fast way to search the web as well as quick access to ONSPEED's most popular settings and features.

"The ONSPEED toolbar, powered by YAHOO! search, provides ONSPEED customers with a more personalised Internet experience," said Jamie True, Joint CEO of Z GROUP. "It's a free enhancement to our already successful ONSPEED product that will increase customer satisfaction while at the same time contribute to annual revenue per user."

The ONSPEED toolbar is part of ONSPEED's most recent release (Version 5.1.6) and is currently available for Internet Explorer only.

### **ONSPEED toolbar features include:**

- Search the web faster and easier using YAHOO!'s industry-leading search technology
- Turn ONSPEED on directly from the Internet browser
- See your real-time Internet acceleration from ONSPEED
- Show all original images on the web page
- Turn on ONSPEED pop-up blocker
- Quick access to ONSPEED Support

---

### **Notes for Editors:**

#### **About Z GROUP**

Founded in 2002, Z GROUP is a successful, publicly listed London-based technology company which acquires, licences and develops technologies and profitably commercialises them through proven branded marketing techniques, offering cutting edge, easy to use and affordable software.

With over half a million customers to date, Z GROUP has five software business lines:

- OnShare: proprietary and revolutionary file sharing software enabling highly secure communication between small or large groups of users
- ONSPEED Mobile: unique mobile phone acceleration software, which speeds up and optimises slow Internet connections and helps users control associated costs
- ONSPEED: the fastest Internet acceleration software on the market, which instantly enables any PC, Mac and Pocket PC user to browse and email at near Broadband speeds by using a 9 patented compression technology
- Net2Roam: a service that allows individuals and SMEs to obtain local Dial-up access numbers worldwide at rates below normal international rates
- Onbidder: a service that integrates into eBay, making a user's bid at the last second of an auction - giving the user the best chance to win their item at the best possible price
