About Z GROUP

Z GROUP is a profitable, marketing-led technology company with a proven track record in the selection, development and successful marketing of technologies. Z GROUP selects the technologies, which it acquires or licenses for development on the basis of identified market demand and specialises in cost effective, performance based marketing through a variety of channels.

The company has currently three existing software businesses

- Net2Roam and NetAway; services that allow individuals and SMEs to obtain local dial-up access numbers worldwide at rates below normal international rates
- ONSPEED; fastest internet acceleration software on the market, which instantly enables any PC, Mac and now for the first time Pocket PC user to browse and email at near broadband speeds by using a 9 patented compression technology.
- ONSHARE; this first service will allow user groups to communicate and share information between PCs, which are not necessarily part of an existing network, securely via the Internet. It is currently in development and the launch to users is expected during the latter half of 2005.
