

***ONSPEED, Europe's leading Internet accelerator, signs agreement with Wanadoo UK to bring significantly faster connection speeds to Wanadoo's UK Dial-up customers***

**London, UK – November, 28<sup>th</sup> 2005** – ONSPEED, part of Z GROUP PLC, the brand leader in Internet acceleration and Wanadoo, one of the UK's leading Internet Service Providers, today announced an agreement providing Z GROUP's powerful Internet acceleration software ONSPEED to Wanadoo's UK Dial-up customer base. The agreement will see Wanadoo offering ONSPEED as a value added product to increase retention and customer satisfaction.

"The agreement between Z GROUP and Wanadoo will give Wanadoo Internet customers unrivalled Dial-up speeds and allow Wanadoo to set its product apart from the competition", says Meghan Cady, Marketing Director of Z GROUP. "ONSPEED will significantly enhance Wanadoo's Dial-up customers' Internet experience, so they do not miss out on all that the web has to offer."

Launched 18 months ago, ONSPEED has become the leading Internet acceleration software in Europe, with over 450,000 users in the UK alone. ONSPEED's sophisticated email and web acceleration technology provides a dramatic improvement in access speeds over any Internet connection anywhere in the world all via a simple download.

**About Z GROUP PLC**

Founded in 2002, Z GROUP is a publicly listed technology company which acquires, licences and develops technologies and profitably commercialises them through proven branded marketing techniques. Z GROUP offers cutting edge, easy to use and affordable software for everyone. The company currently has three existing software businesses:

- Net2Roam and NetAway; services that allow individuals and SMEs to obtain local Dial-up access numbers worldwide at rates below normal international rates
- ONSPEED; fastest Internet acceleration software on the market, which instantly enables any PC, Mac and now for the first time Pocket PC user to browse and email at significantly improved speeds by using a 9 patented compression technology.
- Onbidder; service that seamlessly integrates into eBay, making a user's bid at the last second of an auction – giving the user the best chance to win their item at the best possible price.
